Subject: 2005 Annual Bloodborne Pathogen and Lab Safety Training

2005 Annual Bloodborne Pathogen and Laboratory Safety Training

The Bloodborne Pathogen and Biosafety Update is mandatory for all personnel with occupational exposure to blood, blood products and other potentially infectious materials, but open to all staff who are interested in learning more about work safety in a laboratory environment.
The Laboratory Safety and Hazardous Waste Management Update is mandatory for personnel with occupational exposure to chemical hazards in the laboratory, but open to all staff who are interested in learning more about work safety in a laboratory environment.

Staff should sign up for these trainings using the YnotLearn program. You can access YnotLearn on the HealthNet website at http://healthnet

Training Dates:
Wednesday, October 19
Thursday, November 10
Friday, December 2

All training sessions will be held in the Auditorium from 10:30 am - 12:00 noon with a short break between courses.

This program is mandatory for Bureau of Laboratory staff working at the State Laboratory Institute, Jamaica Plain. A supervisor may request certain staff be exempt from all or part of this program if the staff person does not have any occupational exposure. Supervisors must notify Kristen Pribeck via e-mail if they have staff who are exempt from this training. If you are not able to attend any of the Bloodborne Pathogen or Chemical Hygiene training dates listed, please notify your supervisor. A makeup session will be scheduled at a later date.
